Notes

- Total Expense Ratio (TER): The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three year period (or since inception where applicable) and annualised to the most recently completed month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction cost (TC): The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available. Total investment charge (TIC): This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.
- Market data is sourced from Datastream. The FTSE/JSE Africa Index Series is calculated by FTSE International Limited ("FTSE") in conjunction with the JSE Securities Exchange South Africa ("JSE") in accordance with standard criteria. The FTSE/JSE Africa Index Series is the proprietary information of FTSE and the JSE. All copyright subsisting in the FTSE/JSE Africa Index Series index values and constituent lists vests in FTSE and the JSE jointly. All their rights are reserved.
- All holdings information is based on latest available data.
- There may be differences in totals due to rounding.
- All returns quoted are before the deduction of all fees charged. Returns for periods exceeding one year are annualized and all returns are quoted in Rands. Past investment returns are not indicative of future returns.

AF Passive Moderate

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

Launch date
January 2024

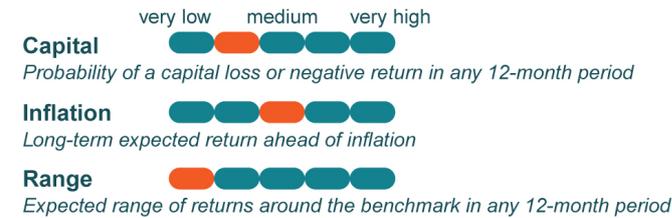

Fund size
R 8.9 billion

Fund description
Combined - Multi asset class - Passive

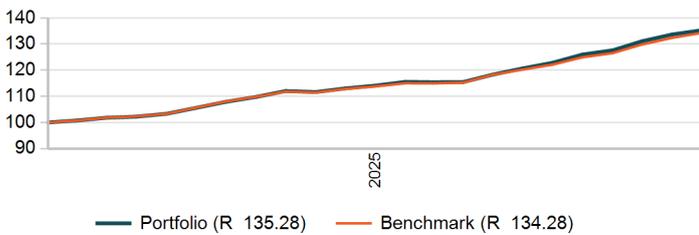

Portfolio description
The primary objective of a retirement fund is to replace one's salary on retirement. A Net Replacement Ratio (NRR) is used to measure the percentage of final pensionable salary that can be obtained by purchasing an annuity that will provide a guaranteed inflation-linked income stream for life. An NRR of between 60%-75% is generally accepted to provide the required income for most people to maintain their existing lifestyles supported by their salaries. This may vary from individual to individual, depending on his/her needs and circumstances.

An AF LifeStage retirement solution is a dynamic investment strategy designed towards achieving this objective. The AF LifeStage solution has 2 distinct phases: Accumulation of assets (30-40 years), and preparing towards specific retirement objectives (5-7 years prior to retirement). The AF Passive Moderate portfolio is designed to be part of the AF Passive LifeStage retirement solution. It reduces capital risk (volatility) relative to the AF Passive Bold Moderate portfolio, and is used in the middle phase of the preparation for retirement where the main objective is capital preservation.

Notes

- Market data is sourced from Datastream. The FTSE/JSE Africa Index Series is calculated by FTSE International Limited ("FTSE") in conjunction with the JSE Securities Exchange South Africa ("JSE") in accordance with standard criteria. The FTSE/JSE Africa Index Series is the proprietary information of FTSE and the JSE. All copyright subsisting in the FTSE/JSE Africa Index Series index values and constituent lists vests in FTSE and the JSE jointly. All their rights are reserved.
- All holdings information is based on latest available data.
- There may be differences in totals due to rounding.
- All returns quoted are before the deduction of all fees charged. Returns for periods exceeding one year are annualized and all returns are quoted in Rands. Past investment returns are not indicative of future returns.
- Total Expense Ratio (TER): The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three year period (or since inception where applicable) and annualised to the most recently completed month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction cost (TC): The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available. Total investment charge (TIC): This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

Launch date
January 2024

Fund size
R 5.0 billion

Fund description
Combined - Multi asset class - Absolute and Real Return

Portfolio description
The portfolio provides investors access to a diversified multi-asset class portfolio that is expected to generate long term real growth. At the same time the portfolio uses a monthly bonus declaration formula to allocate the underlying returns to provide the investor with a smoother investment journey. The Portfolio therefore includes elements of a smooth bonus portfolio, with the related investment return cross-subsidies between investors, but similar to market linked portfolios, it does not provide any guarantee.

R 1.2 million

Fund description
Combined - Multi asset class - Discretionary

Portfolio description
The AF Truffle Global Balanced fund aims to deliver strong, inflation-beating returns over the long term by actively investing in a diversified range of high-quality local and global assets. The portfolio manager's approach is holistic and grounded in bottom-up portfolio construction, adding insight to flex decisions by considering potential risks and outcomes when securities are combined over market cycles. An agile approach to asset allocation and security selection means the portfolio is able to swiftly capitalise on opportunities as they arise.

AFRF Allan Gray Ltd Classic Balanced

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

Launch date
January 2024

Fund size
R 821.0 million

Fund description
Combined - Multi asset class - Discretionary

Portfolio description
The assets in this portfolio are managed by Allan Gray Limited (Allan Gray). Allan Gray is a focused, bottom-up, share-selecting investment manager, that buys companies with strong balance sheets and superior management teams. The manager follows a Deep Value approach, investing in assets it believes offer superior fundamental value. It analyses company value by comparing the price of the asset to its intrinsic or underlying value. Assets trading at prices significantly below intrinsic value are considered attractive and could be included in Allan Gray's investment portfolios.

- All returns quoted are before the deduction of all fees charged. Returns for periods exceeding one year are annualized and all returns are quoted in Rands. Past investment returns are not indicative of future returns.
- Total Expense Ratio (TER):** The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three year period (or since inception where applicable) and annualised to the most recently completed month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. **Transaction cost (TC):** The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available. **Total investment charge (TIC):** This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.

Launch date
July 2025

Fund size
R 10 050

Fund description
Combined - Multi asset class - Discretionary

Portfolio description
The AF Aluwani Global Balanced Fund is a Regulation 28 compliant fund that invests in major traditional asset classes and aims to achieve consistent performance by delivering real returns over the medium to longer term with a strong emphasis on risk management. The fund seeks to generate competitive, risk-adjusted returns on a consistent basis through any full market cycle. The portfolio manager aims to do this through a focus on active investing based on asset class allocations and stock and instrument selection, and integrated portfolio construction techniques and processes to manage risk.

AFRF Banker

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

Launch date
January 2024

Fund size
R 27.7 billion

Fund description
Local - Fixed Interest - Money market

Portfolio description
The AFRF Banker portfolio is a single asset class portfolio. The specialist investment managers selected for this portfolio may invest in money-market instruments and cash. Money-market instruments are liquid financial instruments that basically simulate cash, but often give a higher return. The managers are given specific mandates aimed at providing an investment return above the average of money-market portfolios, while maintaining a high degree of liquidity and capital preservation. They may only be exposed to institutions with an A1 (F1) credit rating or better.

- There may be differences in totals due to rounding.
- All returns quoted are before the deduction of all fees charged. Returns for periods exceeding one year are annualized and all returns are quoted in Rands. Past investment returns are not indicative of future returns.
- Kindly note that with effect from 1 April 2017, all Alexander Forbes Investments South African equity benchmarks have changed from the FTSE/JSE SWIX to the FTSE/JSE Capped SWIX ALSI Index.

AFRF Coronation Best Investment II

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

Launch date
January 2024

Fund size
R 352.1 million

Fund description
Combined - Multi asset class - Discretionary

Portfolio description
The assets in this portfolio is managed by Coronation Fund Managers (Coronation). Coronation is a fundamental researchbased, bottom-up share-selecting investment manager that has a strong valuation bias and takes a long-term view on shares. Its process allows for flair to filter through to investment decisionmaking. Analysts and portfolio managers are encouraged to display intellectual courage when recommending shares for inclusion in an investment portfolio. This means they are expected to highlight companies with the potential to add significant value to portfolios.

Notes

- Market data is sourced from Datastream. The FTSE/JSE Africa Index Series is calculated by FTSE International Limited ("FTSE") in conjunction with the JSE Securities Exchange South Africa ("JSE") in accordance with standard criteria. The FTSE/JSE Africa Index Series is the proprietary information of FTSE and the JSE. All copyright subsisting in the FTSE/JSE Africa Index Series index values and constituent lists vests in FTSE and the JSE jointly. All their rights are reserved.
- All holdings information is based on latest available data.
- There may be differences in totals due to rounding.
- All returns quoted are before the deduction of all fees charged. Returns for periods exceeding one year are annualized and all returns are quoted in Rands. Past investment returns are not indicative of future returns.
- Total Expense Ratio (TER): The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three year period (or since inception where applicable) and annualised to the most recently completed month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction cost (TC): The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available. Total investment charge (TIC): This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.

Fund description
Combined - Multi Asset Class – Discretionary

Portfolio description
The assets in this portfolio is managed by Coronation Fund Managers (Coronation). Coronation is a fundamental research based, bottom-up share-selecting investment manager that has a strong valuation bias and takes a long-term view on shares. Its process allows for flair to filter through to investment decision making. Analysts and portfolio managers are encouraged to display intellectual courage when recommending shares for inclusion in an investment portfolio. This means they are expected to highlight companies with the potential to add significant value to portfolios.

Calculations are based on actual data where possible and best estimates where actual data is not available. **Total investment charge (TIC):** This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.

AFRF Flexible Income Target

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

Launch date
January 2024

Fund size
R 103.3 million

Fund description
Combined - Multi asset class - Absolute and Real Return

Portfolio description
The portfolio provides investors access to a diversified multi-asset class portfolio that is expected to generate long term real growth. At the same time the portfolio uses a monthly bonus declaration formula to allocate the underlying returns to provide the investor with a smoother investment journey. The Portfolio therefore includes elements of a smooth bonus portfolio, with the related investment return cross-subsidies between investors, but similar to market linked portfolios, it does not provide any guarantee.

R 301.7 million

Fund description
Combined - Multi asset class - Discretionary

Portfolio description
The assets in this portfolio is managed by Foord Fund Managers (Foord). Foord is a long-term investment manager that combines top-down, thematic macro analysis and bottom-up fundamental analysis. In analysing shares the focus is on sustainability and quality earnings, and the preference is to invest in companies at below what it considers fair value. In constructing a portfolio, the aim is diversify between asset classes, while asset and equity sector allocations are determined by an investment strategy based on return and risk expectations.

Notes

- Market data is sourced from Datastream. The FTSE/JSE Africa Index Series is calculated by FTSE International Limited ("FTSE") in conjunction with the JSE Securities Exchange South Africa ("JSE") in accordance with standard criteria. The FTSE/JSE Africa Index Series is the proprietary information of FTSE and the JSE. All copyright subsisting in the FTSE/JSE Africa Index Series index values and constituent lists vests in FTSE and the JSE jointly. All their rights are reserved.
- All holdings information is based on latest available data.
- There may be differences in totals due to rounding.
- All returns quoted are before the deduction of all fees charged. Returns for periods exceeding one year are annualized and all returns are quoted in Rands. Past investment returns are not indicative of future returns.
- Total Expense Ratio (TER): The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three year period (or since inception where applicable) and annualised to the most recently completed month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction cost (TC): The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available. Total investment charge (TIC): This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

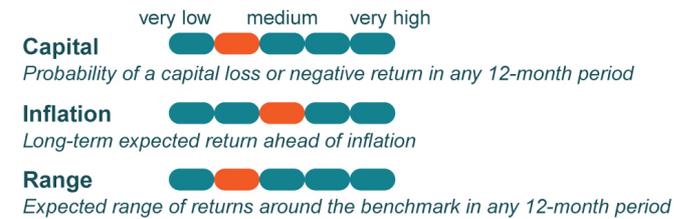

Launch date
January 2024

Fund size
R 131.0 million

Fund description
Combined - Multi asset class - Discretionary

Portfolio description
The assets in this portfolio is managed by M&G Fund managers (M&G). M&G is a Relative Value investment manager that believes prices in investment markets often do not reflect their fundamental value. The portfolio managers analysis seeks to differentiate between shares that are cheap because the companies concerned have poor prospects, and those that have simply been neglected by the market. M&G SA is highly integrated with its overseas parent company, whose investment professionals around the world share ideas, information and research. M&G UK is critical to the process, providing invaluable information that filters through from tactical asset allocation to bottom-up share selection.

AFRF Ninety One Asset Management

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

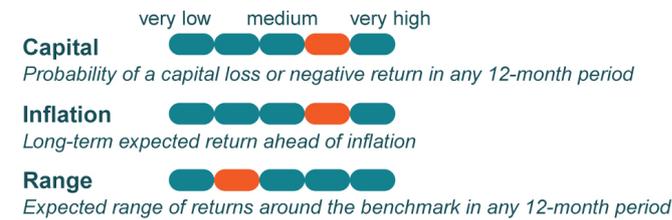

Launch date
January 2024

Fund size
R 300.3 million

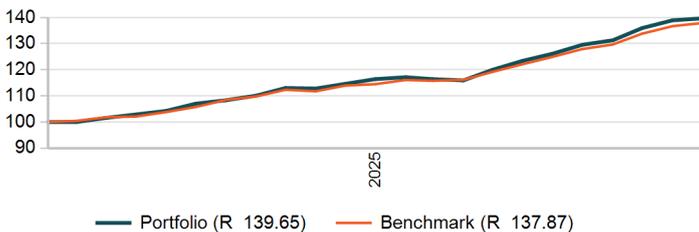

Fund description
Combined - Multi asset class - Discretionary

Portfolio description
The assets in this portfolio is managed by Ninety One. This portfolio invests into Ninety One's best view strategy. The Ninety One Balanced silo leverages off the company's research platform, but is responsible for making the asset-allocation and share-selection decisions. The equity component is constructed by blending macro-thematic views with bottom-up fundamental research on companies. Companies with a strong valuation underpin, positive earnings revisions, as well as those with improving growth prospects on reasonable valuations are favoured in this silo.

Notes

- Market data is sourced from Datastream. The FTSE/JSE Africa Index Series is calculated by FTSE International Limited ("FTSE") in conjunction with the JSE Securities Exchange South Africa ("JSE") in accordance with standard criteria. The FTSE/JSE Africa Index Series is the proprietary information of FTSE and the JSE. All copyright subsisting in the FTSE/JSE Africa Index Series index values and constituent lists vests in FTSE and the JSE jointly. All their rights are reserved.
- All holdings information is based on latest available data.
- There may be differences in totals due to rounding.
- All returns quoted are before the deduction of all fees charged. Returns for periods exceeding one year are annualized and all returns are quoted in Rands. Past investment returns are not indicative of future returns.
- Total Expense Ratio (TER): The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three year period (or since inception where applicable) and annualised to the most recently completed month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction cost (TC): The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available. Total investment charge (TIC): This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.

AFRF Performer

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

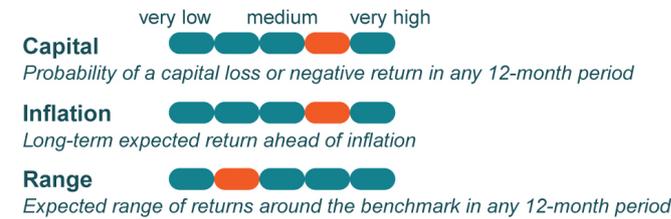

Launch date
January 2024

Fund size
R 302.2 billion

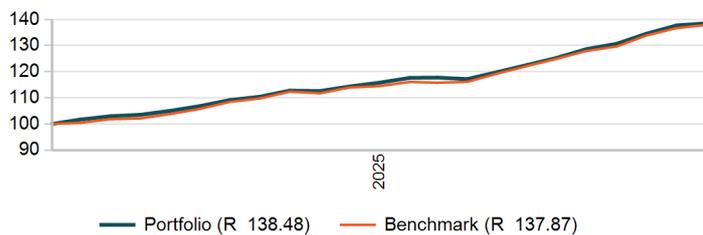

Fund description
Combined - Multi asset class - Discretionary

Portfolio description
The AFRF Performer is a moderate-to-high risk balanced portfolio and targets CPI + 5 over a rolling 6 year period. The portfolio adopts Living*Investing as a philosophy, which entails a risk-based forward-thinking investment approach, with the aim to achieve client outcomes with a greater degree of certainty. The asset allocation is dynamic to allow the portfolio to participate on the upside and to protect on the downside in falling markets which means accumulating from a higher base, thus adding value in the long term. The portfolio blends diversified strategies including alternatives, both locally and offshore, to capture different sources of returns.

Notes

1. Total Expense Ratio (TER): The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three year period (or since inception where applicable) and annualised to the most recently completed month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction cost (TC): The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available. Total investment charge (TIC): This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.
2. Market data is sourced from Datastream. The FTSE/JSE Africa Index Series is calculated by FTSE International Limited ("FTSE") in conjunction with the JSE Securities Exchange South Africa ("JSE") in accordance with standard criteria. The FTSE/JSE Africa Index Series is the proprietary information of FTSE and the JSE. All copyright subsisting in the FTSE/JSE Africa Index Series index values and constituent lists vests in FTSE and the JSE jointly. All their rights are reserved.
3. All holdings information is based on latest available data.
4. There may be differences in totals due to rounding.
5. All returns quoted are before the deduction of all fees charged. Returns for periods exceeding one year are annualized and all returns are quoted in Rands. Past investment returns are not indicative of future returns.

AFRF Shari'ah High Growth

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

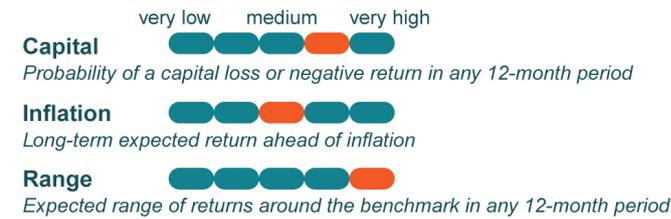

Launch date
January 2024

Fund size
R 592.3 million

Fund description
Combined - Multi asset class - Specialist

Portfolio description
A Shari'ah compliant portfolio designed to grow an investor's savings over the long term (six years or more). This portfolio is invested in both local and international types of investments that are Shari'ah compliant, such as shares, sukuk and listed property. Investment managers who are specialists in a particular asset class are appointed to invest assets within their area of expertise. This portfolio has a low chance of the value of one's investment going down over the long term. The value of your investment will go up and down in the short term due to the exclusions required by Islamic law. This means that there are fewer shares and other types of assets available to invest in, which may result in the portfolio being more volatile over the short term.

AFRF Shari'ah Medium Growth

Fund Fact Sheet - Retail Investor

AFRF Infund Range

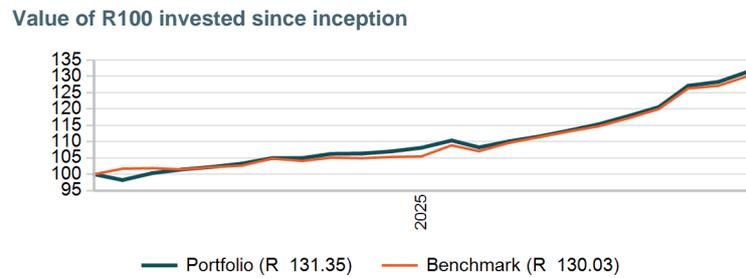

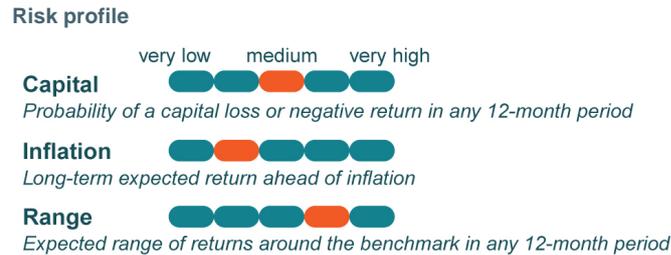

November 2025

Launch date
January 2024

Fund size
R 64.6 million

Fund description
Combined - Multi asset class - Specialist

Portfolio description
A Shari'ah compliant portfolio that is managed within moderate limits. This portfolio is invested in both local and international types of investments that are Shari'ah complaint, such as shares, sukuk and listed property. Investment managers who are specialists in a particular asset class are appointed to invest assets within their area of expertise. This portfolio is suited to an investor with a medium-term investment time horizon (three years) who wants to protect capital while still achieving moderate growth of his assets. This portfolio has a low chance of the value of one's investment going down over a three-year period. This means there's a chance that the value of your investment may go down over the very short term – but these losses should not be big.

Fund Fact Sheet - Retail Investor

AFRF Infund Range

November 2025

Launch date
January 2024

Fund size
R 377.4 million

Fund description
Combined - Multi asset class - Absolute and Real Return

Portfolio description
The AFRF Stable Focus Combined portfolio is a global Reg. 28 compliant multi-asset class portfolio. It adopts an absolute return multi-manager investment approach where it selects skilled absolute return managers as well as specialist managers in specific asset classes and strategies. The underlying asset allocation, portfolio construction and strategy selection is designed to reflect the asset managers view to capture positive returns given existing market conditions and mandate objectives. An absolute return strategy should over the longer term, generate less volatile returns lower than for a typical balanced portfolio. The portfolio may include investments in derivative instruments.

Notes

- Market data is sourced from Datastream. The FTSE/JSE Africa Index Series is calculated by FTSE International Limited ("FTSE") in conjunction with the JSE Securities Exchange South Africa ("JSE") in accordance with standard criteria. The FTSE/JSE Africa Index Series is the proprietary information of FTSE and the JSE. All copyright subsisting in the FTSE/JSE Africa Index Series index values and constituent lists vests in FTSE and the JSE jointly. All their rights are reserved.
- All holdings information is based on latest available data.
- There may be differences in totals due to rounding.
- All returns quoted are before the deduction of all fees charged. Returns for periods exceeding one year are annualized and all returns are quoted in Rands. Past investment returns are not indicative of future returns.
- Total Expense Ratio (TER): The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three year period (or since inception where applicable) and annualised to the most recently completed month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction cost (TC): The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available. Total investment charge (TIC): This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.
